
Annual Report and Accounts 2018

Our Responsibility

Our Approach

ARYZTA is committed to operating as a financially successful and socially responsible business for the long-term. Our strategies are developed with careful consideration of Environmental, Social and Governance (ESG) factors. The Group has established the ARYZTA Cares initiative, aimed at promoting active employee, customer and supplier engagement in pursuit of our corporate responsibility goals.

The key elements of this programme, as summarised below, include:

- Environmental Practices
- Food and Marketplace
- People and Workplace
- Sustainable Sourcing
- Community Engagement

Additional information on each of these areas is also available on our website at: <http://www.aryzta.com/our-responsibilities>

Environmental Practices

ARYZTA is aware that the earth's ecosystems are fragile and that environmental conservation is critical to the continued well-being of the planet, its natural resources and its citizens. In order to monitor the Group's impact on the environment, key bakery production metrics have been established for monitoring electricity consumption, gas consumption, waste water intensity and overall carbon emissions.

These metrics are used not only to assess the efficiency of our individual bakeries and to identify potential cost savings opportunities, but are also included as the primary inputs in determining the Group's CO₂ emissions per metric tonne of food sold, which is the key environmental performance indicator used for measuring the success of our ARYZTA Cares initiative.

This CO₂ metric is calculated based on various bakery and distribution activity inputs and applying a relevant Green House Gas emission factor to assess the estimated global warming potential of activities directly related to ARYZTA's business. For the past two years, ARYZTA has submitted its global GHG emissions to the Carbon Disclosure Project, as a means of public reporting and continuous improvement.

The Group is also keenly focused on our waste stream and recycling as a method to reduce waste sent to landfills.

Food and Marketplace

ARYZTA's commitment to supply chain excellence includes strict vendor standards, comprehensive facility expectations and detailed adherence to customer specifications. Customer requirements are a central component of all of our baking operations. Each customer's specifications, expectations and requirements are documented to ensure compliance.

ARYZTA's internal policies require compliance with all food safety laws and regulations, including labelling requirements.

Our Responsibility (continued)

To ensure our food is produced with the highest level of food safety, the Group's raw material vendors generally must:

- have a recognised Global Food Safety Initiative (GFSI) accreditation
- ensure raw materials are fully traceable back to suppliers
- subject their operations to a risk assessment process in accordance with the ARYZTA Supplier Code of Conduct and Manufacturing Code of Practice
- submit their operations to annual ethical data exchange audits

ARYZTA's food processing facilities operate under comprehensive Hazard Analysis and Critical Control Point (HACCP) systems based on Codex Alimentarius Principles, Good Manufacturing Practice (GMP) and in compliance with applicable food laws and regulations. All relevant internal food safety and quality systems are also certified by independent third-parties.

ARYZTA is committed to our Food Safety, Quality Assurance and Responsible Marketing programmes and has partnered with iCiX to establish effective and efficient ways to manage these programmes. ARYZTA contributes to various voluntary initiatives on food and product safety by actively engaging with industry associations including the British Retail Consortium, International Featured Standards (IFS-Food and IFS-Logistics), American Institute of Baking (AIB) and the US Food and Drug Administration.

Our products are produced to the exacting specifications of our major international food customers, as well as for the unique expectations of our independent local customers. Excellence within this wide array of supply chain expectations is achieved through partnering with our customers, suppliers and partners and through detailed internal training programmes, to ensure quality control standards are adhered to throughout the entire supply chain process.

People and Workplace

ARYZTA recognises that its continued success is dependent on the quality, commitment and responsible behaviour of its people. ARYZTA values diversity and treats all individuals with respect.

The health and safety of our people is of paramount importance to ARYZTA. The Group pursues comprehensive safety management procedures, including policy manuals, verification of regulatory compliance, risk assessments, individual site action plans, safety audits, training programmes, formal accident investigations and the provision of occupational health services.

In order to attract and retain the most talented workforce possible, the Group provides equal opportunities in recruitment, selection, promotion, employee development, succession planning, training and compensation, solely on the basis of merit and business needs and does not discriminate.

Our Responsibility (continued)

The Group has implemented a global Employee Code of Conduct, which establishes policies and expectations of employee behaviour, ethics, anti-bribery and corruption, political involvement and collective bargaining. ARYZTA fully complies with applicable national and local laws and industry standards on working hours and workplace environment.

The Group has established a 24 / 7 hotline with Expo-link (0800 563823) where employees, customers and suppliers can confidentially communicate any concerns through an independent service.

The Group has implemented 'My ARYZTA Connection', a human resources information system used for confidentially retaining and updating employee information, in order to streamline administration and enhance utilisation of employee data on a secure and confidential basis.

Sustainable Sourcing

ARYZTA partners with our key vendors to establish long-term sustainable sources of raw materials that address the social, ethical, economic, safety, quality, and environmental aspects of product sourcing.

The Group sources only UEP-certified eggs in North America, with a longer-term commitment to cage-free egg sourcing. In Europe, our procurement team partners with wheat farmers to encourage sustainable agricultural practices, including optimising the amount of fertiliser and pesticides. We also strive to source Fairtrade ingredients and utilise diversity-owned vendors in sourcing our products.

In order to support the long-term development of sustainable palm oil solutions, ARYZTA is a global member of the Roundtable on Sustainable Palm Oil (RSPO) and participates in three of the available certifications: Book and Claim, Mass Balance, and Segregated Supply.

In addition to meeting the stringent sourcing requirements of our international food customers, ARYZTA has established a Global Vendor Code of Conduct and actively audits suppliers utilising internal and external resources to ensure vendors are compliant with workplace standards, business practices and all local laws and regulations.

Community Engagement

The Group understands its responsibilities as an important member of the communities in which it operates and encourages its business units to play an active role within them. In addition to providing employment opportunities, the Group aims to make positive contributions to its community by building relationships and earning a positive reputation as a good employer, neighbour and corporate citizen.

The Group believes that donations are the business of the shareholder and ARYZTA has established protocols for philanthropic activities. Employees are also encouraged to contribute their time and talents to causes that are important to them individually. In addition, ARYZTA routinely supports philanthropic activities of our key customers.
